Frida Kahlo was born in 1907 and died in 1954.

She was born in Mexico City. Her home, 'The Blue House' became a museum after she died.

Frida contracted polio when she was six. She had to stay in bed for nearly a year. She played sports like football, swimming and wrestling to help recover her strength. Frida had a nearly fatal bus accident when she was 18, she wad to wear a whole body cast for 3 months.

Frida grew all sorts of exotic plants in her garden. She often used plants and flowers in her paintings.

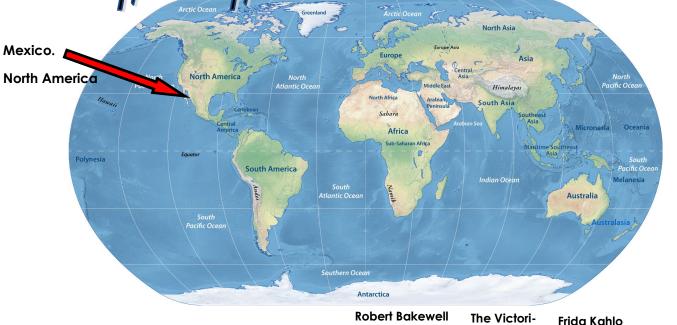

Frida Kahlo used her paintings to express her feelings and heart break.

She painted over sixty self portraits.

Her art is considered 'surrealist' as it portrays all images from the mind, even from dreams.

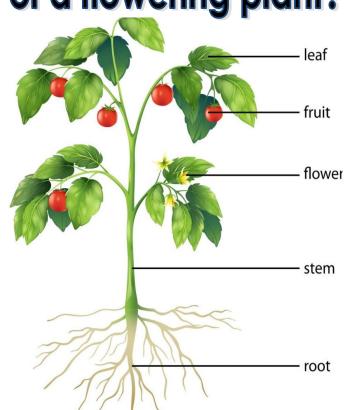

Which city, country, continent did Frida Kahlo come from?

Stone age
The Egyp- The Ma- The Ancient Greeks discovered the Earth was spherical.

10,000 BC
