

Why is a tiger not a good pet?

Books we will read:

Our Rhyme: Hey diddle, diddle

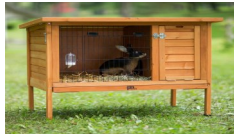

What does a pet need?

food

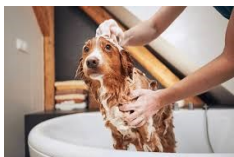

water

shelter

fresh air and
exercise

cleaned

loved

Carnivore

They eat other animals.

Herbivore

They eat plants.

Omnivore

They eat both animals and plants.

Why we should not keep tigers as pets;

Tigers are wild animals and can be dangerous.

Tigers are very big and strong.

Tigers need wide open spaces to roam around.

Tigers are carnivores and need a lot of meat each day.

Vocabulary

Bird

They have feathers and wings. They have 2 legs and a beak.

Mammal

They have hair or fur and grow inside their mummy's tummy.

Reptile

They have scales and cannot keep their body warm.

Fish

They have scales and live in the water. They have fins to help them swim.

Amphibian

They have smooth slimy skin. They live in the water and on land.
